

**Annex H - Eggs**

1	Upon arrival at Field Team Center, receive a status briefing from team leader and review this SOP to familiarize yourself with what might be required. Clarify any questions with Team Leader or Field Team Center Coordinator before departing on sampling assignments. Verify communications, radio channels, cell phone numbers, FTC number, etc.
2	Receive sampling assignment(s) from Team Leader.

IF	THEN
Assignments are outside of the Restricted Zone	Proceed with Item #3 of checklist
Assignments include locations inside Restricted Zone	If needed, request assistance from Team Leader or Field Team Center staff in plotting routes to assigned locations.  Request briefing on dosimetry and use of any protective gear issued.  Request any information on stay time restrictions.  Request monitoring station location.  Review sampling techniques, procedures, requirements, and locations with assigned escort.  Follow the escorts instructions regarding cross-contamination and exposure control measures.

3	Inventory sampling kit using Attachment 1. Obtain any missing items from Field Team Center.
---	---

IF	THEN
Team Leader advises that samples are to be split (processed at different labs to verify accuracy).	Make two complete collections at assigned sample site per normal procedures.  Indicate this information on both data sample sheets and containers.

**Prior to Traveling to the Sample Site**

4	Label all containers with as much information as possible.
5	Fill out the Sample Laboratory Data Sheet with as much information as possible and have the sampler sign the chain of custody section.
6	Ensure the vehicle has adequate fuel, paper liner on floorboards and cargo area, trash box with liner or trash bag with duct tape, sample transport container, receptacle for reusable equipment (for decon), maps, and communication equipment.
7	Turn on GPS unit and Survey Meter
8	Place the following items into backpack or equipment caddy: two extra large resealable bags, bottles, funnel, bottle brush, permanent marker, ink pen, GPS Unit, clipboard with Sample and Laboratory Data Sheet, sampling instructions, paper towels, small trash bag, and knife. Split samples require two additional large resealable bags and Sample Data Sheet
9	Don PPE (Tyvek, Boot covers, and Gloves).

**Upon Arrival to Sample Site**

10	Radio Field Team Center of arrival and explain purpose of sampling to the property owner (if appropriate) while verifying the exact address for the Sample and Laboratory Data Sheet. Conduct an area survey taking note of background readings in the margin of the Sample and Laboratory Data Sheet.
11	Don respiratory equipment, if advised by Field Team Center.
12	Utilized lined trash box or prepare a garbage bag to receive waste by taping it in place on an easily accessible area in the work vehicle.
13	Select an area to conduct sample that will yield enough eggs for about 1 gallon.
14	Begin samples by breaking eggs into bottle using funnel. Retain shells in separate plastic bag for analysis. Labels for both bottle and shell bag should match.
15	If needed, yolks may be broken to allow the egg to flow into the bottle from the funnel. Continue process until a 1 gallon sample bottle is filled. Seal the shell bag and tape to outside of closed sample bottle.
16	Place the sample in the sample bag using care in handling the bag to minimize the possible contamination of exterior and noting any irregularities in obtaining sample.
17	Use the survey meter to take radiation reading at a maximum of 3-5cm from sample container. Do not make contact with sample container. Record reading on Sample Data Sheet as Sample Contact Reading.
18	Complete the sample submission sheet recording time, GPS latitude, and longitude.
19	Place the sample sheet and double bagged sample into third resealable bag and seal. Ensure all information on sample sheet is visible. Place sample in iced cooler for transport.
20	Place used paper towels and previously removed glove(s) into small trash bag. Clean any used tools with wipe.

**Returning to Vehicle**

22	Secure samples in transport container.
23	Place reusable equipment, if any, in decon container for decontamination.
24	Place continuous use equipment (survey meter, backpack, etc.) in equipment container.
25	Place disposable equipment in waste container.
26	Remove one layer of gloves and place in waste container.
27	Contact Field Team Center to update status of Field Sampling Team and proceed to next sample point as previously instructed.

**Annex H - Eggs**  
**Sampling Equipment Inventory Sheet**

This list covers all items needed for soil samples. You may need to obtain additional equipment for other types of samples (i.e. Leafy Vegetation, Water, etc.)

Equipment Caddy
Backpack
Protective Gloves
Boot Covers
Tyvek
(3) 18"x20" Resealable Bags
Gallon Sample Bottles
Absorbant Pads
Retractable Utility Knife
(2) Permanent Markers
Paper Towels
Clipboard
Sampling Instructions
Sample and Laboratory Data Sheet
Ink Pen
Survey Meter
GPS Unit (wrap in plastic)
Hand Held Radio (wrap in plastic)
Utility belt (Optional)
Small Trash Bag
Cooler
Knife

Note: Split samples will require additional bags and Sample and Laboratory Data Sheet. If assignment exceeds four samples, obtain additional supplies from Field Team Center.

(Items such as coolers and ice for perishable samples and protective clothing/dosimetry/respirators for sampling within the Restricted Zone would be provided by the Field Team Center.)

**Annex H - Eggs**  
**Instructions for Completing Sample and Laboratory Data Sheet**

Plant - Beaver Valley Power Station

Sector - Leave Blank if Unknown

Distance - Leave Blank if Unknown

Date Collected - MM/DD/YYYY (ex. 06/31/2010)

Mil Time - Use 24 hour clock

Code - See the key on sheet (ex. "OT" for other)

Agency Log No. - Given by Field Team Center for tracking

Street - Leave Blank if Unknown

GPS Latitude - Enter Direction and Degrees-Minutes Decimal

GPS Longitude - Enter Direction and Degrees-Minutes Decimal

Collected by - Enter Your Name and agency

Sampling Info - Fill out info for Vegetation sample under other (Comment any irregularities)

Field 1 Meter Reading - Leave Blank

Field Contact Reading - Leave Blank

Sample Contact Reading - Reading obtained in Step 17 after sample

Duplicate/Split # - Enter split or duplicate number if applicable

Chain of Custody - Print name, sign, date and time
